

The Superior National Forest, located in the Northeast tip of Minnesota, is sandwiched between Lake Superior and the Canadian border. One third of its three million acres contains the Boundary Waters Canoe Area Wilderness (BWCAW).

The Superior National Forest contains over 2,000 lakes. Even so, only 12% of the Forest's 3.9 million acres is covered by water. The National Forest hosts 27 United States Forest Service campgrounds, 9 Minnesota DNR campgrounds, 2,200 developed campsites within the Boundary Waters Canoe Area Wilderness (BWCAW), and 254 back country campsites outside the BWCAW. These camping areas provide quick access to 354 fishing lakes, 162 public boat landings, 29 picnic areas, 400 miles of designated hiking trails, 450 miles of groomed cross-country ski trails, and over 1500 miles of canoe routes through the BWCAW.

The northern forest community thrives with its pine, fir, and spruce trees and is home to numerous wildlife species including eagles, deer, gray wolf, common loon, Canadian lynx, moose, and black bear.

- *Gray wolf*: Northern Minnesota is the last stronghold of the gray wolf in the lower 48 states. Approximately 300-400 wolves continue to roam within the boundaries of the Superior National Forest today
- *One of 100 globally important* bird areas by the American Bird Conservancy
- *Fish species* : walleye, northern pike, smallmouth bass, lake trout, brook trout, rainbow trout, and brown trout can be found in abundance
- *Diverse habitat* for a vast array of wildlife species including bald eagle, gray wolf, and Canada lynx, which are species on the Federal endangered list
- Deer, moose, common loon, and black bear are commonly seen
